

Please submit this form electronically prior to shipping or print then place on top of the instrument inside the shipping container.

Failure to submit this signed certificate may delay action by the BASi Service Department and will result in a \$95 fee.

All items must be disinfected to neutralize biological materials prior to shipping.

> PLEASE SELECT ONE OPTION FROM BELOW

The signer declares that the listed instrument:

- Has not come in contact with radioactive materials and has been thoroughly cleaned to remove any other hazardous materials.
- Has come in contact with radioisotopes, but has been decontaminated and verified to be free of radioactive materials. (please note, if choosing this option, a BASi representative will request additional documents to support the testing procedure).
